

## **LISTING OF THE CLAIMS**

*The following listing of claims replaces all prior claim listings and versions:*

1. (Currently Amended) A system for securing a window including an outer glass to a vehicle body, the system comprising:
  - a window chassis configured to support the outer glass;
  - a glue element for gluing the outer glass to the window chassis;
  - a counterchassis configured and positioned to connect said window chassis to said vehicle body, wherein said counterchassis is glued to said vehicle body and includes a draw piece with at least an outer portion and at least an inner wing, said outer portion and said inner wing being interconnected, wherein said outer portion is substantially coplanar to said outer glass; and
  - a reversible fastener configured and positioned to connect said draw piece to the window chassis.
2. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said draw piece is substantially Z-shaped.
3. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said outer portion of said draw piece is shaped so as to be coplanar also to an outer profile of said window chassis.
4. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said inner wing of the draw piece includes a housing for the means used to fasten the window chassis to said draw piece.
5. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said window chassis is connected to the draw piece via a gasket configured to provide centering, watertightness and support of the window framework.

6. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said draw piece is provided with a fastening foot to improve the structural stability of the system.

7. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said draw piece is provided with steps and notches configured to provide a connection to an opening in the vehicle body through gluing.

8. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, further comprising a gasket for condensate recovery, said gasket being housed within a specially-shaped throat formed into a profile of the window chassis.

9. (Canceled)

10. (Currently Amended) The system ~~for securing the outer glass to the vehicle body~~ according to claim 1, wherein said draw piece consists of a single piece.

11. (Currently Amended) In combination, the system ~~for securing the outer glass to the vehicle body~~ according to claim 1 and the outer glass.

12. (Currently Amended) In combination, the system ~~for securing the outer glass to the vehicle body~~ according to claim 1 and the vehicle body.
